

Mohammed salih.k

MERN Stack Developer

☎ +91 8547276865 | ✉ mohammedsalihk8547@gmail.com | [in LinkedIn](#) | [GitHub](#)

Summary

Full-stack developer with experience building secure and scalable web applications using JavaScript, Node.js, Express, MongoDB, React, and Vue.js. Skilled in authentication, payment gateway integration, and RESTful APIs. Enjoys writing clean code, solving real-world problems, and working in team-based environments while continuously learning new technologies.

Technical Skills

- **Programming Languages:** JavaScript, HTML, CSS
- **Frontend:** React.js, Vue.js, EJS, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, JWT, WebSocket
- **Soft Skills:** Context-Switching, Systems Thinking, Adaptability, Curiosity, Accountability

Work Experience

Intern | Fugipie Technologies

December 2025 – March 2026

- Developed secure authentication and authorization using **JWT** and **bcryptjs**.
- Designed and optimized **MongoDB** schemas using **Mongoose**.
- Built scalable backend services with **Node.js** and **Express.js** following **MVC** and **REST** standards.
- Integrated **Razorpay** and **Cashfree** for secure payment processing, implementing webhook-based transaction validation.
- Improved SEO and performance using server-side rendering with **EJS**.
- Developed responsive UI components using **React.js** and **Vue.js**.
- Collaborated using **Git** and **GitHub** for version control and code reviews.

Projects

ogDoc – Real-Time Collaborative Document Editor

[GitHub](#)

- Architected a collaborative editing platform using **Yjs CRDTs** and **WebSockets** to enable conflict-free multi-user editing with sub-100ms latency.
- Developed a grid-based drag-and-drop editor supporting dynamic placement of text, image, and video widgets.
- Implemented a secure permission system allowing document owners to manage participants and remove unauthorized users in real time.
- Integrated real-time video calling using **WebRTC** to support seamless in-document collaboration.
- Enabled secure OAuth authentication by deploying the frontend via **ngrok**, converting HTTP traffic to HTTPS for **WebRTC** and **Google OAuth 2.0** compatibility.
- **Technologies:** React.js, Node.js, WebSockets, Yjs, WebRTC, Google OAuth 2.0

SKYLARK – Luxury Vehicle Reservation System

[Live Demo](#) | [GitHub](#)

- Built a responsive vehicle reservation system with real-time booking and **Razorpay** payment integration.
- Engineered a live admin dashboard using **Chart.js** and **MongoDB Aggregations** to visualize revenue streams and fleet utilization.
- Implemented secure user authentication, booking history management, and a real-time issue tracking system.
- Developed inventory management tools for vehicle tracking and maintenance status monitoring.

- **Technologies:** React.js, Node.js, Express.js, MongoDB, Razorpay, Chart.js

Membership Management Platform

[GitHub](#)

- Built a reusable membership platform adaptable to various membership-based businesses, handling plans, payments, and member access in a single system.
- Developed **Admin** and **Member** modules with role-based access control, allowing admins to create plans, assign memberships, and manage users.
- Integrated **Razorpay** for membership payments, handling secure transactions and payment verification.
- Integrated **Cashfree Payment Gateway** to support subscription renewals, implementing plan expiry logic and automatic renewal handling.
- Implemented email notifications using **Nodemailer** to trigger membership-related actions and updates.
- Designed responsive UI using **React.js** and connected frontend to backend APIs using **Axios**.
- Managed data storage using **MongoDB** with **Mongoose** for schema design and database operations.
- **Technologies:** React.js, Node.js, Express.js, MongoDB, Razorpay, Nodemailer, Axios

CERTIFICATES

Full Stack Web Development

December 2025

- Completed a 6-month Full Stack Web Development program at **Datatribе**.

[Certificate Link](#)

Bachelor of Computer Applications (BCA)

2022 – 2025

- SAFI Institute of Advanced Study
